

## Company Set Up and Management

Having your own company in Japan makes you a real player in the market.

Setting up a subsidiary in Japan is best way to service your customers in Japan. Parkdale Group Inc. can help you set up, manage, and grow your business.

Your own subsidiary and employees in Japan puts you in the driver seat for building your business.

You can manage your own approvals and manage the supply chain and sales, and have direct interaction with players in the Japanese market. Your own staff can develop relationships with Key Opinion Leaders, gain a deeper understanding of the dynamics of the market, and interact directly with end users and care providers.

All companies in the Medical Device and Healthcare business should consider setting up a subsidiary in Japan.

### Rocket Science:

Setting up a company in Japan isn't rocket science. However it does require knowledge and the right network of professionals to make it happen smoothly. It also requires some patience as the various government agencies and banks in Japan are meticulous in process and detail.

### Subsidies:

Knowledge of government subsidy and support programs is critical to make the set up cost effective and sustainable. Cities, Prefectures, as well as National Government agencies will have a wide set of subsidy and support systems to make your entry more cost effective and successful.

Kyoto Tower

### Locations:

Many cities are extremely favourable for setting up a subsidiary in Japan. Kobe, Kyoto, and Osaka are ideal locations to enter the Japanese market, with reasonable costs, great infrastructure, and high levels of support. A wonderful quality of life and safe, clean, and well-organized cities await you in Japan. But if Tokyo or Yokohama is a necessity, we can take you there as well. We can help you set up anywhere in Japan.

### Professional Costs:

You don't need a white shoe law firm or a global accounting company to set up in Japan. Working with local professionals makes sense. They bring years of skills, local connections and insight needed to get things done. We have the right networks, expertise and experience to make this all happen.
